

Errol Churton

Aana means....Just so!.... & reflects exactly the carvings I do & the stories they reflect

I live in Palmerston I major in I.T and meet a great friend and sculptor Pita Rua and as he introduced me to a chainsaw, I have never looked back.

I have perfected my art and my tools that to a point that, finding more walls to break down has become a challenge.

I am married and all my children have left the nest which leaves more dedication to my art.

I love to create and not only does it reflect in my work but in my life, stories and my achievements.
